Introduction

Alhamdulillah we had another brilliant year on the enrichment side of things in our school. This is a brief overview of the various extra-curricular activities that have been undertaken throughout the year, demonstrating our continued commitment to holistic student development.

Students participated in a variety of activities that enhanced their skills and knowledge. Here are some highlights from the program:

1. STEM Workshops: Students engaged in hands-on activities such as building robots and conducting science experiments.
2. Outdoor Adventure: Students had the opportunity to explore nature through outdoor activities. They gained vital experience about environmental conservation and outdoor recreation.
3. Career Exploration: Professionals from various fields visited the school to talk about their careers and offer insights into different industries. Likewise, students went to different careers events to gain invaluable experience about industries they aspire to go into.

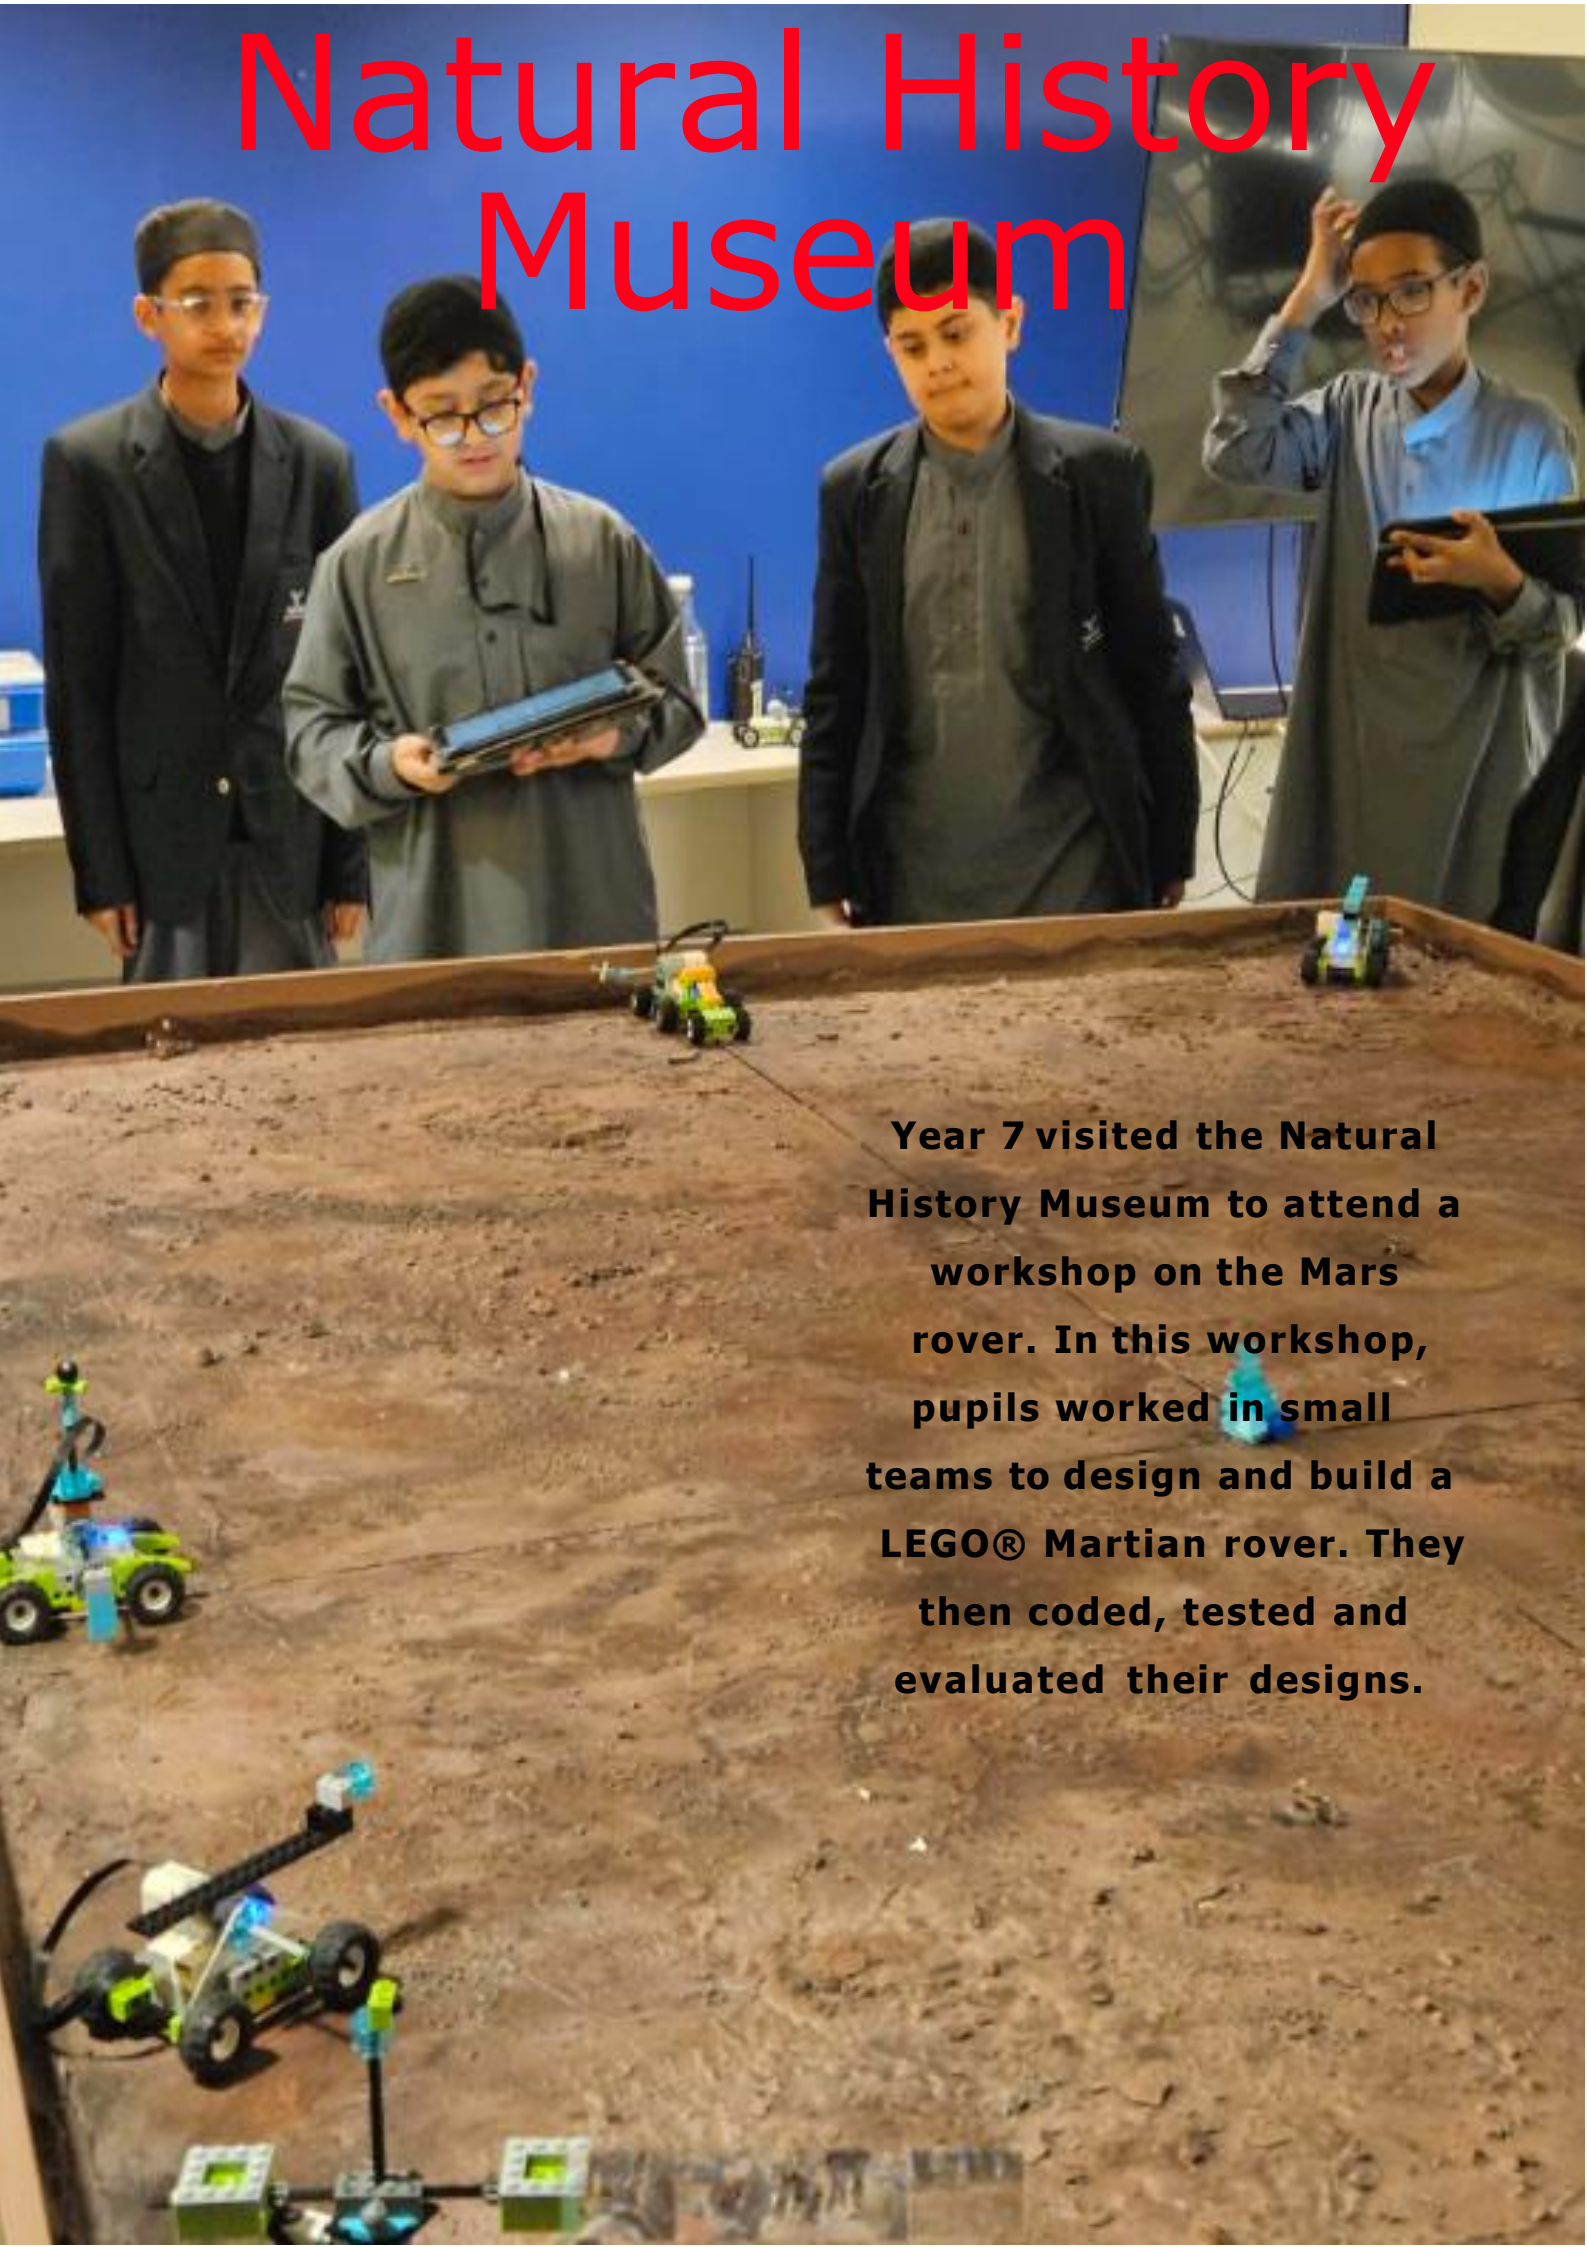

Overall, the end of year enrichment program provided students with a well-rounded educational experience that fostered creativity, critical thinking, and personal growth. It was a wonderful way to wrap up the school year and inspire students to continue learning and exploring new opportunities.

The success of these enrichment programs can be attributed to the dedication and support of the teachers, parents, and external partners. Their unwavering commitment have been instrumental in delivering these programs.

Our school's enrichment program plays in a crucial role in providing students with a well-rounded education that goes beyond traditional classroom instruction. By offering a diverse range of enrichment activities, we provide students an opportunity to discover their passions, develop important skills and cultivate a lifelong love of learning.

As the school community reviews this report, feedback and suggestions are always welcomed and appreciated. Such constructive input will help us further enhance the learning environment and provide more opportunities for students to grow and excel.

Natural History Museum

Year 7 visited the Natural History Museum to attend a workshop on the Mars rover. In this workshop, pupils worked in small teams to design and build a LEGO® Martian rover. They then coded, tested and evaluated their designs.

British Library Trip

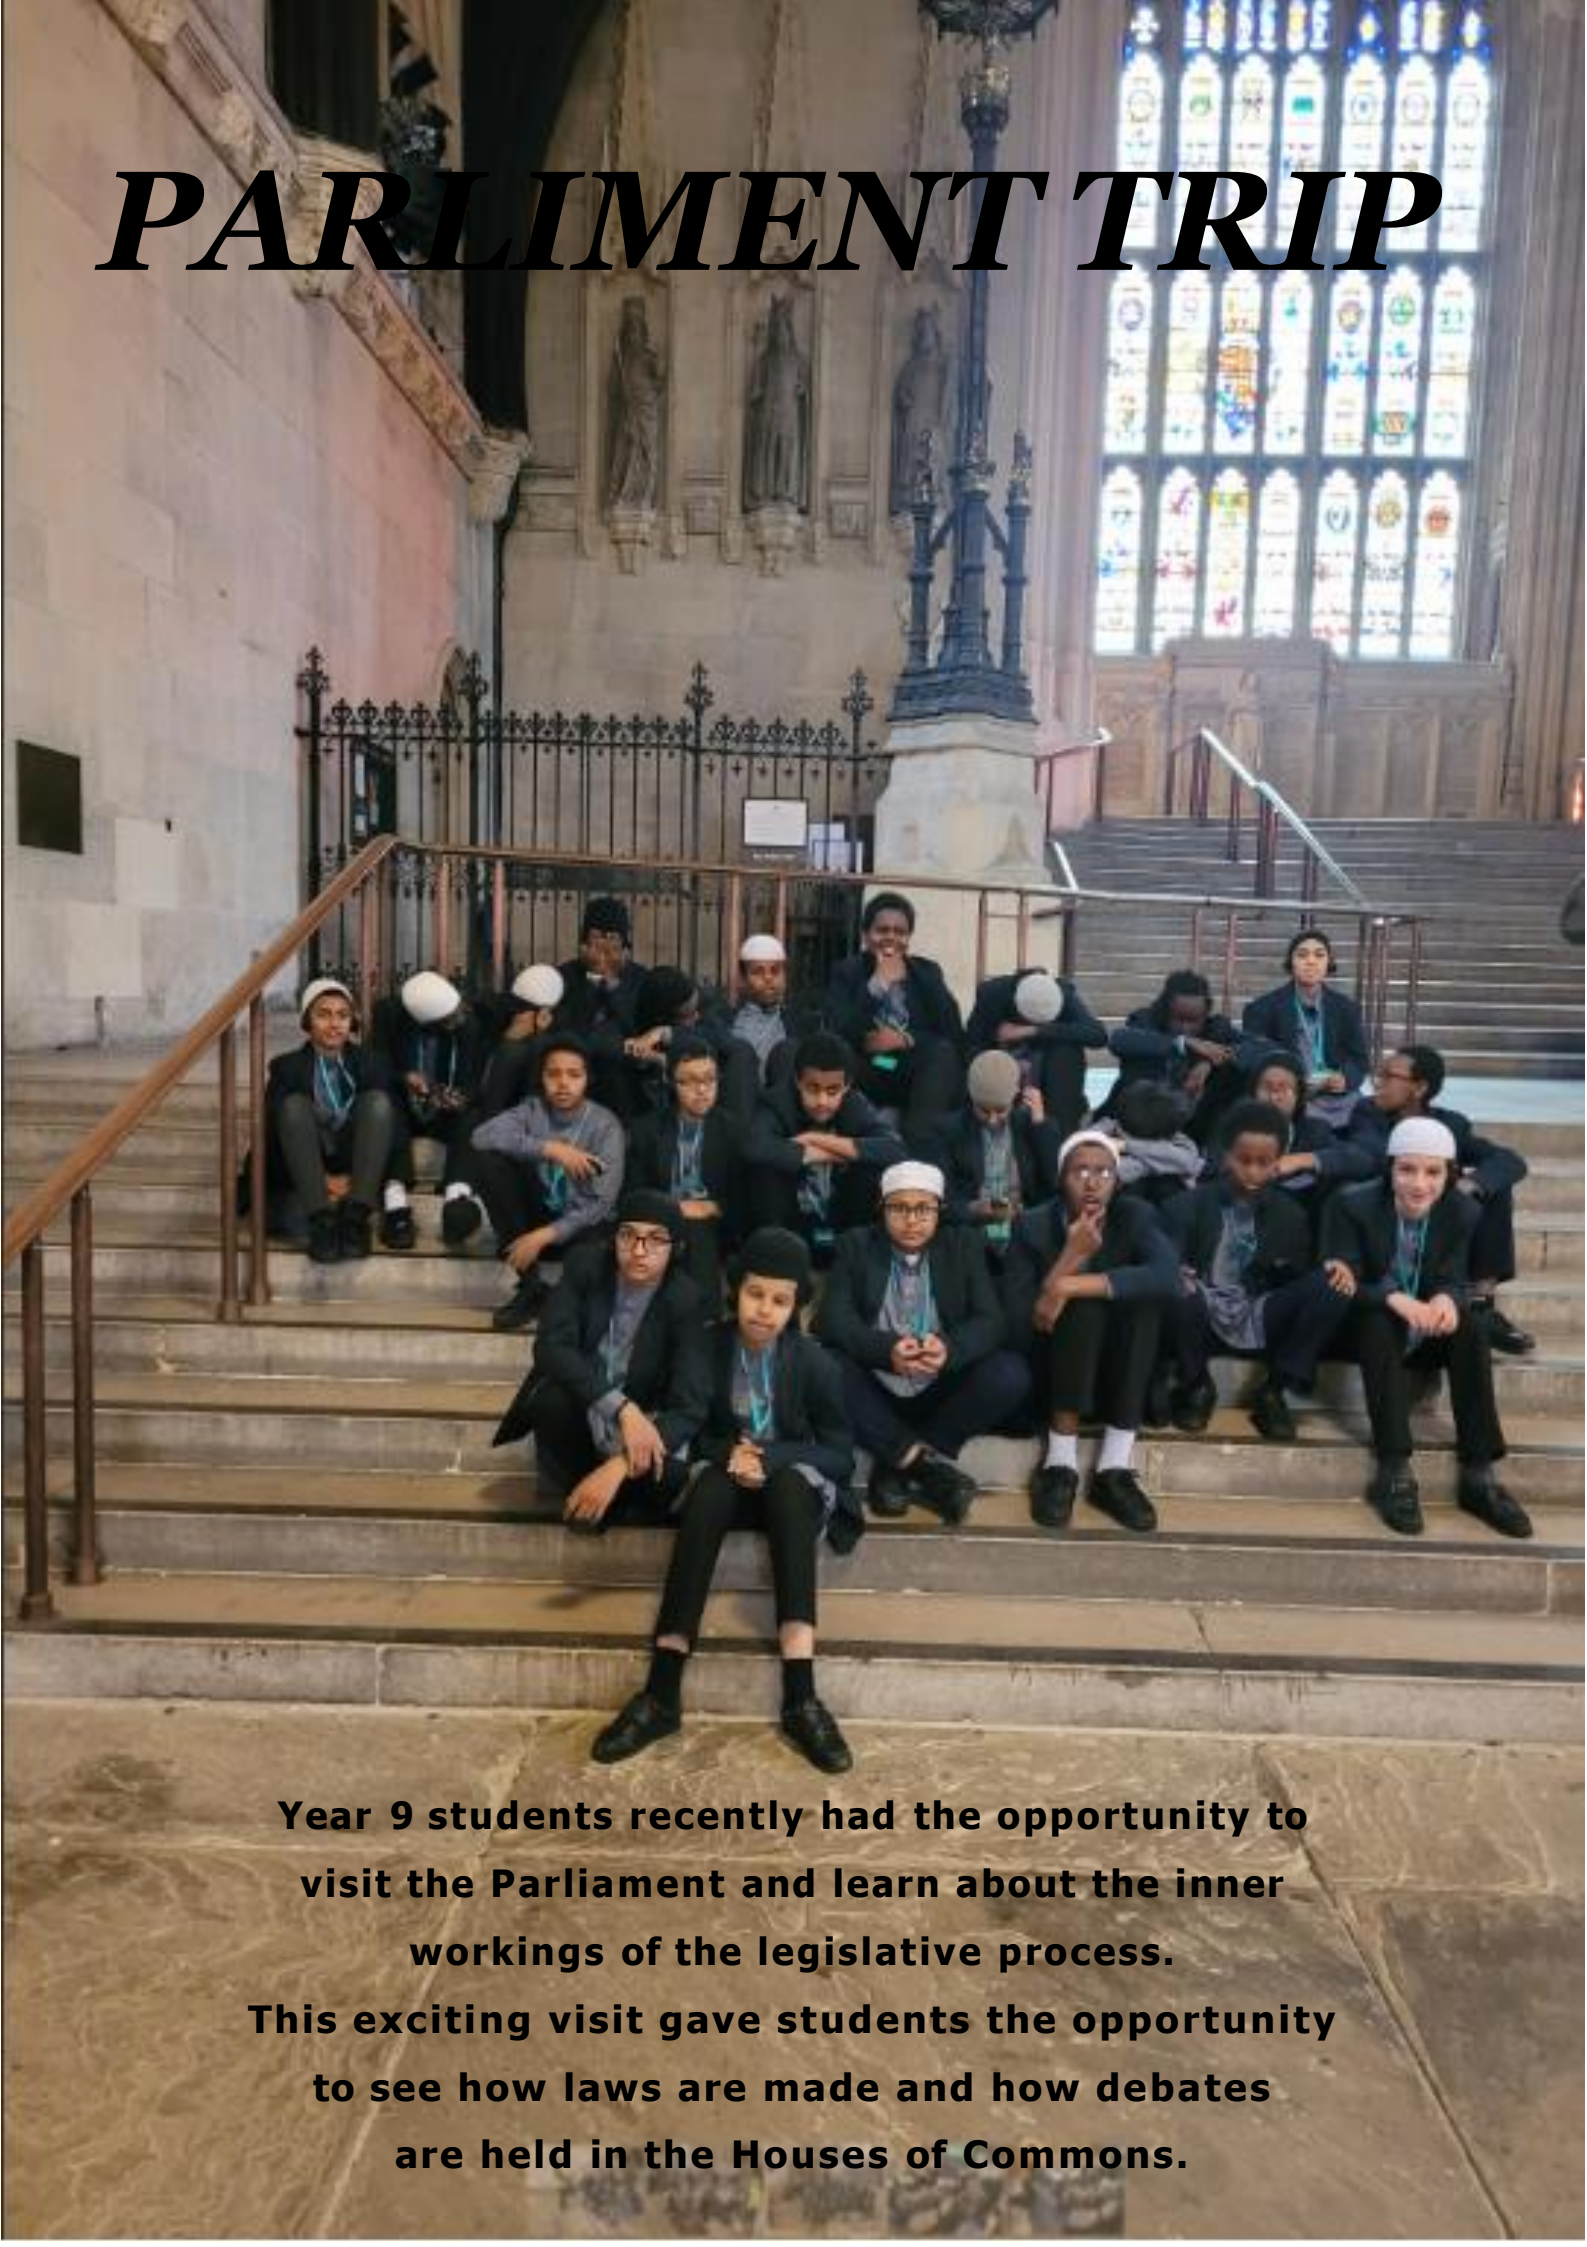

SKILLS LONDON

Our Year 11 pupils attended the 'Skills London 2023 Jobs and Careers event on Friday 25th November at The London Excel. This was an exciting hands-on event that offered our Year 11 pupils an exclusive opportunity to meet Universities, top employers, colleges, Apprenticeships, training providers and loads of other exhibitors. This event provided them with an opportunity to find inspiration and make life-changing connections, while enabling organisations to spark a connection with their future talents.

PARLIMENT TRIP

A group of approximately 25 Year 9 students are posed on the wide stone steps of a grand, historic building. The students, a mix of boys and girls, are dressed in school uniforms consisting of dark blazers, light blue shirts, and dark trousers or skirts. Many of the boys are wearing white kufi caps. They are arranged in several rows, some sitting on the steps and others standing behind them. The building's facade is made of light-colored stone and features several statues in niches. A large, ornate stained glass window with multiple panes of colorful glass is visible in the background on the right. The overall atmosphere is formal yet relaxed, capturing a moment from a school trip.

Year 9 students recently had the opportunity to visit the Parliament and learn about the inner workings of the legislative process. This exciting visit gave students the opportunity to see how laws are made and how debates are held in the Houses of Commons.

8th Annual Qur'an Competition Results

Prize

1st £50

2nd £35

3rd £25

Prize

1st £40

2nd £30

3rd £20

Upper School (Yr 10 + 11)

1st Ahmed Yunus
2nd Mohamed Abdulah Nur
3rd Salah Eddin Khelifi

Lower School (Yr 7 + 8 + 9)

1st Muhammed Yunus
2nd Sufyaan Maljee
3rd Hasan Mselem

Laser Quest

OUR YEAR 7 CLASS WENT ON A LASER TAG + TRAMPOLINE PARK OUTING TO CELEBRATE THE HARD WORK AND ACHIEVEMENTS OVER THE PAST YEAR. THIS WAS A THOROUGHLY ENJOYABLE TRIP FOR STUDENTS AND TEACHERS.

Morocco Residential Trip

A large waterfall cascading down a steep, rocky cliff face in a lush, green environment. The water is white and frothy as it falls, contrasting with the brown and tan hues of the rock. The surrounding area is covered in dense green vegetation, including trees and shrubs. The sky is a clear, bright blue.

WE ARE THRILLED TO SHARE THE EXCITING ADVENTURES OF OUR YEAR 11'S RECENT TRIP TO MOROCCO, WHERE OUR STUDENTS HAD THE OPPORTUNITY TO IMMERSE THEMSELVES IN THE RICH CULTURE AND VIBRANT ACTIVITIES OF THIS CAPTIVATING COUNTRY. THE JOURNEY WAS FILLED WITH UNFORGETTABLE EXPERIENCES AND FURTHER STRENGTHENED THE BONDS BETWEEN THE STUDENTS AND OUR SCHOOL.

Morocco Residential Trip

The villa the students stayed in had a beautiful pool surrounded by palm trees and greenery. Students would love sitting out here enjoying the outdoors and taking a dip in the pool.

Morocco Residential Trip

Students were given the chance to do adrenaline filled activities such as quad-biking.

Morocco Residential Trip

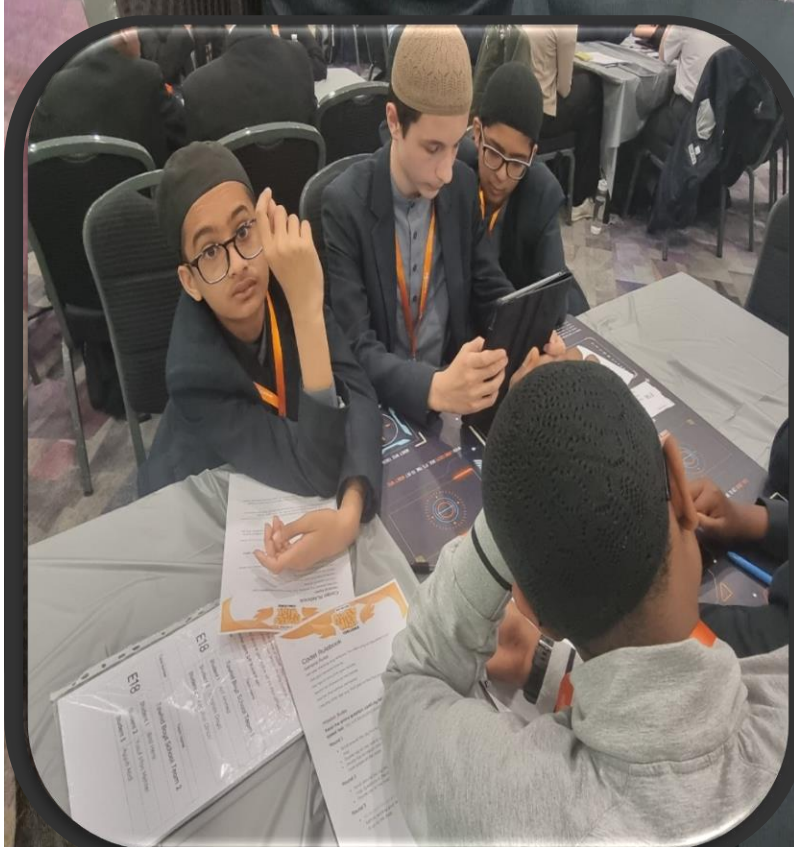

One of the many sites that they visited, the beautiful and historical Koutoubia Mosque.

MoneyWise Competition Trip

A group of students in school uniforms are seated around a table at a competition. They are looking at a tablet and discussing it. The table has a 'MoneyWise' logo and some papers. In the background, other students and tables are visible.

We are delighted that we had the opportunity to send a variety of Year 7, 8 and 9 students to the annual MoneyWise competition at London Excel Arena. They faced up against hundreds of other students from different schools and learnt greatly from this experience.

Year 8 + 9 GoApe Alexandra Palace

SPORTS DAY

GAMES CLUB

Throughout the year we have given students a place during lunch time to enjoy a variety of board games including Jenga, snakes and ladders, connect 4 and many more. This is an integral part of our enrichment program in which students are able to use their creativity and minds to overcome their opponent.
